

Fine steel for fine spirits

» Storage tank BD

The storage tank BD is completely made of AISI 304. Therefore it is often used to store and mature spirits. It is, however, also ideally suited for the storage of smaller quantities of fully fermented beverages.

The BD is robust and long-lasting. The tank's resistant walls, its excellent finish and stability are typical for Speidel's characteristic quality.

APPLICATION RANGE (PRESSURELESS)

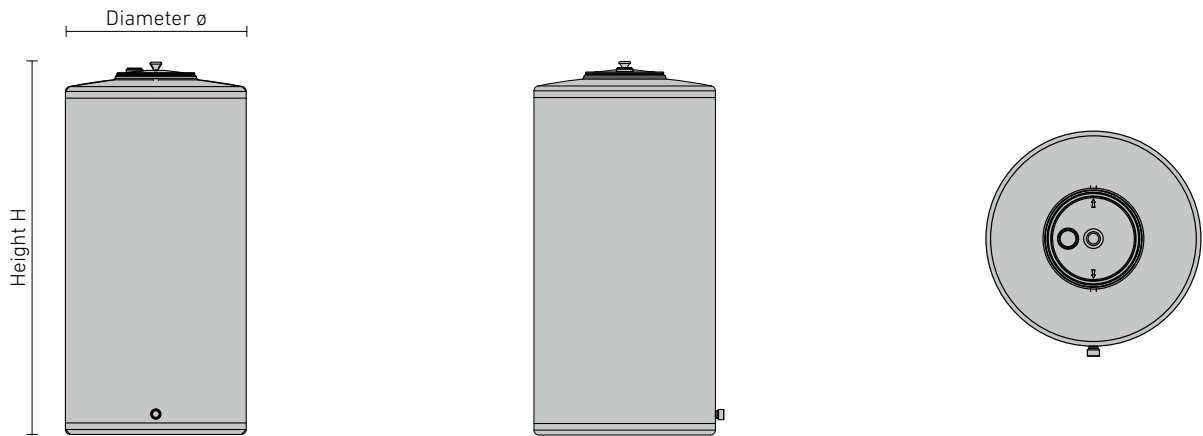

- › Storage
 - › Maturation
- Ideal for
- › Spirits
 - › Fermented beverages

STANDARD EQUIPMENT FOR STORAGE TANK BD

- › AISI 304 stainless steel, surface III d (2R), marbled outside
 - › Vaulted tank top, with filling dome 220 mm
- › Lid with inner clamp fastener, drilled hole \varnothing 38 mm and removable plastic blank cap to hold the fermentation lock with bung
 - › Flat tank bottom
- RACKING OUTLET**

 - › Up to 240 litres capacity internal thread G 3/4" (BSP) with plastic blank cap
 - › From 320 litres capacity upwards external thread G 1" (BSP) with plastic blank cap
